Under Article 95 of the Code of Regulations for European Schools Collegiate and Final scholarships are granted at the value of Rs. 20 and Rs. 30 each. The number of scholarships that may be sanctioned has not been prescribed by the above article; but it depends upon the funds available. The Inspector proposes that he may be given general power to split up the value of ~~xxxx~~ single scholarship into two equal amounts when the number of deserving applicants exceeds the number of scholarships at the ordinary rate for which funds are available. To delegate this power to the Inspector the Code will have to be amended suitably. Under Article 14 of the Code all amendments involving a fundamental departure from the general principles on which the Code has been constructed will require the sanction of the Govt. of India. But the splitting up of scholarships to make it available to more deserving students does not appear to contravene the principles of the Code; and the proposed amendment may be sanctioned by the Resident. Moreover when amending the Grant-in-Aid Code for Indian Schools with a view to split up scholarships the Accountant General ruled that there was no audit objection to the amendment being sanctioned by the Resident.

A draft order amending the Code and a draft requisition to the Press are submitted.

Article 48 of the Code of Regulation for European Schools and Rule 52 of the Grant-in-Aid Code for Indian Schools may be amended as proposed by the Inspector of Schools. The word 'Section' in the proposed amendment to Article 48 of the Code for European Schools may be altered to 'chapter' when amending rule 52 of the Code for Indian Schools on the same lines. The amendment does not involve a fundamental departure from the general principles on which the two codes have been constructed. The proposed amendment may therefore be sanctioned by the Resident.

Two draft amendments and a draft requisition to Press are submitted.

Please see S.N. 4 and 6. The amendment to Article 48 of the Code of Regulations for European Schools follows the existing provision in Rule 52 of the Grant-in-Aid Code for Indian Schools. There is no reason why the principle applicable to Indian Schools should not apply to European Schools. As the principle of purchase has been recognised by the Code for Indian Schools the adoption of the same principle under the Code for European Schools does not appear to involve a departure from our general educational policy.

Regd. No. 8600
File No. 1133/35

Sir,

I have the honour to invite your attention to your letter No.853 dated the 29th January 1934, in which permission was given to the Inspector of Schools to divide a Collegiate scholarship given under the Grant-in-Aid Code for Indian Schools in the Civil and Military Station, Bangalore, into two of equal amounts, whenever the number of deserving applicants exceeds the sanctioned number of scholarships.

2. I find that it would be desirable to introduce a similar rule in the Code of Regulations for European Schools in the Civil and Military Station, Bangalore. The number of Collegiate scholarships to be given under this Code is not prescribed but depends on the funds available. Ordinarily, in recent years, six have been given. The financial circumstances of applicants vary considerably even among those who could not afford to continue their studies without financial help. In some cases, a half scholarship would make a College course possible, in other cases a full scholarship is necessary. In order to enable the greatest possible number of deserving applicants to receive the benefit of a scholarship, I propose that I may be given power to award scholarships of half the usual value when the number of deserving applicants exceeds the number of scholarships at the ordinary rate, for which funds

are available.

3. I therefore request you to be good enough to obtain the Hon'ble the Resident's sanction to the addition of the following note/- to rule 95 of the Code of Regulations for European Schools in the Cêvil and Military Station, Bangalore.

* Note:- The value of Collegiate and Final grade scholarships may, at the discretion of the Inspector, be halved, if the number of deserving applicants exceeds the number of scholarships at the ordinary rate, for which funds are available.*

Sir,

I have the honour to invite your attention to rule 48 of the Code of Regulations for European Schools in the Civil and Military Station, Bangalore, wherein it is prescribed that "the managers must undertake to refund the amount of any grant made for furniture, apparatus or appliances, if the school ceases to exist within three years from the date of payment". This rule is defective in that it does not provide for cases in which a school, though it continues to exist, utilises the articles for other than educational purposes, or sells them. Such a case having now come to my notice, I find that I have no authority under the Code to take action in the matter.

2. I therefore propose that the rule may be revised as follows:-

"If an institution which has received aid under this section ceases, within five years from the date on which the grant was drawn, to use the furniture, apparatus, books or appliances for educational purposes approved by the Department, the Government shall be at liberty to purchase the articles towards the supply of which the grant was given, at a

16

valuation to be made by an officer to be deputed by the Government for the purpose".

The rule appears in these terms in the Code of Regulations for European Schools in Madras.

3. I propose also that the revised rule given in para 2 should be substituted for Rule 52 in the Grant-in-Aid Code for Indian Schools in the Civil and Military Station of Bangalore.

To

Sir,

Sub: Amendment of Art. 48 of the Code of Regulations for European Schools in the Civil and Military Station.

With reference to the Hon'ble the Resident's Proceedings No. F. 1133/35/R.O.II. dated 23-10-1935 on the subject indicated above, I have the honour to state that the amended Article '48' as it stands, appears to be a fundamental departure from the main principle enunciated in the original Article '48'. Under the old Article 48 the Managers of the Institutions had to refund the grant in certain circumstances and the amended Article extinguishes this liability to refund and substitutes for it the option of Government to purchase at a valuation the articles towards the supply of which grants were given. The result of the amendment would be that if the school ceases to exist within five years from the date on which the grant was drawn, the original grant would not be refunded and Government would, at the same time, have to pay the full value and take over the articles. This would apparently involve a material departure from the general principles on which the Code has been constructed and require the sanction of the Government of India under Article 14 of the Code.

2. I might, in this connection, refer to the parallel rule in Madras, Article 60 of the Grant-in-aid Code of the Educational Department. The rule retains the option to purchase and also provide for the adjustment of the purchase price in adjustment of the liabili of the management to refund the grant. In Madras, when Government decide to purchase the articles, payment has to be made to the

institution, only of the excess of the valuation over the amount already given as grant towards the original purchase.

3. I would in the circumstances request to be informed of the exact intention underlying the amendment. If, as I take it, the intention is to conform to the Madras practice, I would suggest that the rule may be suitably amended, if the Hon'ble the Resident approves.

I have the honour to be,

Sir,

Your obedient servant,

Accountant General.

To

The Secretary to the Hon'ble the Resident in Mysore,

Bangalore.

Sir,

With reference to your No. F. 1133-35/R.O.II, dated 5-12-1935, I have the honour to state that the amendment as proposed by me, was copied from the Code of Regulations for European schools of the Government of Madras (vide Rule 154). Rule 60 of the Grant-in-Aid Code for Indian schools in Madras is, however, more satisfactory, and the amendment already sanctioned may kindly be modified by the addition of the following:

" When the Government purchase the articles at the valuation so fixed, the amount to be paid to the Management shall be only the excess of the valuation over the amount already given as grant towards their original purchase.

Alternatively, the Government may direct that the articles shall be sold in auction, in which case the proceeds shall be paid in to the Government Treasury; provided that if the proceeds exceed the amount of grant already paid towards the purchase of the articles the difference shall be payable to the management of the school".

2. I have retained the words " ceases...to use...etc.", in the amendment already sanctioned. Rule 60 of the Madras Grant-in-Aid Code refers to the closing of the institution or diversion

diversion of the institution to other than educational purposes. But the wording in the sanctioned amendment is more comprehensive, for it covers the important case in which an institution, continuing to exist, discontinues the teaching of some subject (e.g., Manual training) for which the apparatus in question was purchased.

I have the honour to be,

Sir,

Your most obedient servant,

K Gaumer
